APP & VOICE Control

Effortlessly manage and customize your cleaning preferences through the intuitive app or simply command your cleaner with voice control, making household chores smarter and more convenient than ever.

Silent Water Supply and Drain

Direct pumping auto water supply and drainage. Cleaning is supposed to be so easy.

Automatic Dust Collection

Internal circulation dust collection technology with two-way air channels Cycle Boost. Zero contact with dust. Polluting-free.

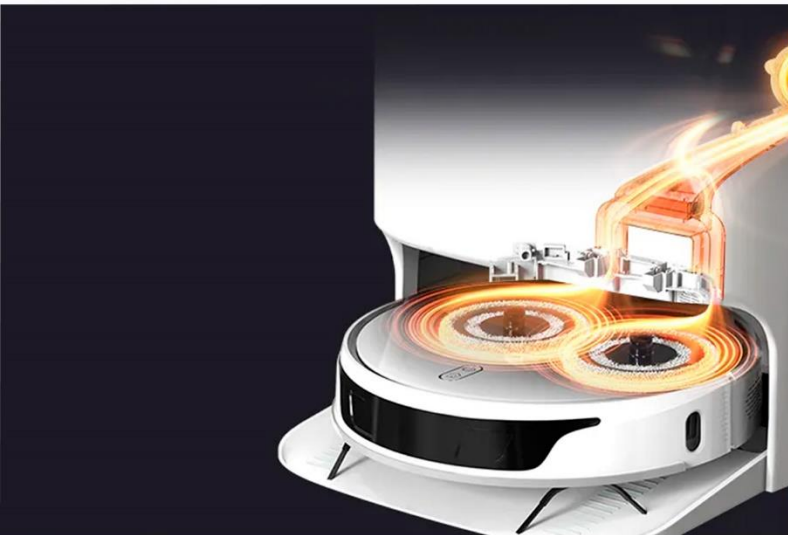

Auto Washing of MOP

Automatically wash the mop during cleanup.

Adjustable Frequency for Back to the Dock (3 Levels of Frequency)

Adjustable Cleaning Modes

3 Cleaning modes for mop (Daily / Fast / Deep Cleaning Mode)

Auto Drying of MOP

Keeps the mop dry and odorless.

50°C Hot Air - Fast Drying

Mop Lifting - Even drying

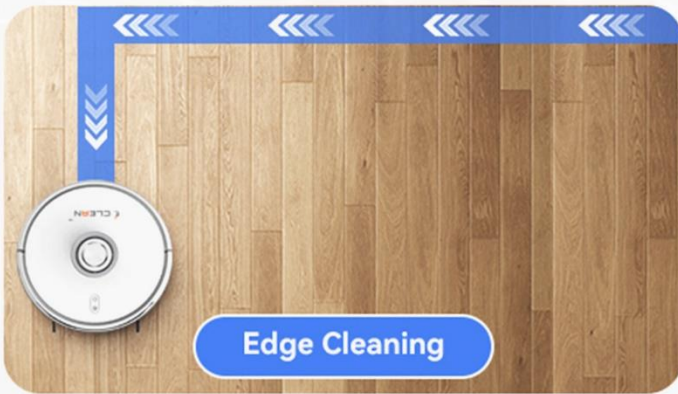

Y-Shaped Pressure Mopping

The Bane of Stubborn Stains

Even after 7 days of residual coffee stains can be easily removed.

CLEANING MODES

Enjoy the convenience of a spotless home with this **4 Cleaning Modes**, combining efficiency & functionality for a truly comprehensive cleaning experience.

Intelligent Mop Lifting

Detect the ground environment in real time, and adopt different cleaning strategies according to different environments.

The mop will lift automatically

1. When encountering the carpet to avoid wetting the carpet .
2. Go back to the dock to self clean when the mop is dirty.
3. Go on cleaning the floor when the mop is clean.
4. Surmount obstacle when encountering the threshold.

DIRECT PUMPING AUTO WATER SUPPLY AND DRAINAGE

Discovering a new water supply and drainage tech!

Not only provides basic automatic water supply and drainage function, but also makes the design for clean/dirty water tanks become a history, at the same time, we also reduced the noise below 55dB and finally no need to clean the base station by yourself, that so we called a ease life.
